RE: Bonding Capability of Brickley Environmental

To Whom It May Concern:

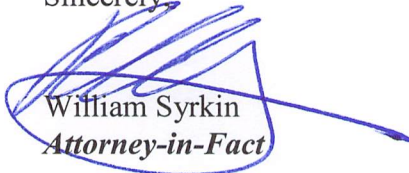

Per the request of our client, Brickley Environmental, we are pleased to write this letter as an indication and verification of their bonding capabilities and capacity.

At this time, Brickley Environmental has a working line of surety credit of \$5,000,000 single contract and \$10,000,000 aggregate program. This line is based on cost to complete and is not an indication of our maximum support but simply provided for their normal use. At this time, they have more than 95% available on their line and we do not foresee any problems in providing bonding should they be awarded a contract.

Please be advised that this letter is not a commitment to provide any specific bond(s) and is provided solely as an indication of our support. The execution of any bond or bonds is a matter between the contractor and us. We assume no liability to you or any third party in providing this letter.

If you have any additional questions, please call me at 818-203-0408.

Sincerely,

William Syrkin
Attorney-in-Fact
