RE: Letter of Recognition for Exceptional Service
Brickley Environmental

To: Mr. Tim Brickley
Brickley Environmental
957 West Reece Street
San Bernardino, CA 92411

Tim,

I wanted to thank you and your personnel for the exceptional work you have performed repeatedly here at Marine Corps Air Station Miramar.

Over the course of my tenure as the Asbestos & Lead Program Manager at MCAS Miramar your organization has consistently provided skilled personnel and innovative solutions to multiple asbestos & lead-based paint projects aboard station.

Your administrative management, project supervisors and workers have always shown the utmost courtesy, respect, and professionalism. Their knowledge of the industry, their experience and attitudes has made each project a success.

I am confident that all projects with your company will be completed in a timely, efficient, and cost effective manner. I look forward to working again with your company and personnel on future projects.

For your organizations continued support of our asbestos & lead-based paint program I gratefully thank you. Semper Fi!

Most Respectfully,

Michael R. Penrod
Asbestos & Lead Program Manager – APM/LPM
Pest & Weed Program Manager - IPM
Environmental Compliance Coordinator - ECC
